Losberger De Boer's unique Galaxy tent system

## Reach for the stars!

**Do you want to own one of the largest, most characteristic and absolutely unique event tents in the world? Well, now's your chance.**

If you need a stage that is fit for stars, look no further than the Losberger DeBoer Galaxy. This big top tent has been the main stage for the Lowlands Festival, one of Europe's most famous summer festivals, and has been the host to many world-class events, including the MTV Awards.

### A one-of-a-kind tent system

And now, as a result of our continuous investments in both product development and available stock, this one-of-a-kind tent is available for sale – and at a once-in-a-lifetime price, if we may say so.

## How big is it?

Big. And just like the actual Galaxy, ours is known to expand. It is available in lengths of 67 to 107 metres, allowing for a capacity of over 15,000 people, making the Galaxy one of the largest event tents in the world.

Other features include an opaque roof, which, together with its staggering height and dark blue interior, allows for spectacular light shows.

The Galaxy is a unique tent, that is a guaranteed eyecatcher and is fit for the biggest events and shows in the world. It will last you another few decades, making this a solid investment. It can be erected in under a week (don't worry, we'll show you how). And, did you know you can transport the entire Galaxy on just 10 trailers?

### Here's what's included:

- Frame
- Blue/Yellow PVC roof covers
- PVC side curtains
- Ground anchoring with pins
- Lifting systems for columns
- Complete parts list
- Training in building and dismantling

### Do you want to own the Big Top Tent that hosted the MTV Awards?

The Galaxy, especially considering the fact that it's in great shape and that this is a one-off price, is solid investment for:

- Businesses that rent out tents for high-end, large scale events
- Travelling circuses that hold large shows for several weeks on end
- Festival organisers that want to own their largest stage tent
